

To Whom it May Concern:

I am writing to request that my counselling benefits be expanded to include the services of a Registered Clinical Social Worker (RCSW).

Registered social workers are professionals that provide affordable counselling and therapy for a wide range of life concerns. Many insurance providers include them as qualified providers of counselling and psychological services. I am interested in working with Megan Sutherland, a registered clinical social worker in private practice. Unlike psychologists, who typically charge between \$140-\$180 per session, Megan charges between \$100-\$130 a session, which would allow me to obtain greater counselling value from my benefits allotment.

Megan is a committed counselling professional who understands my specific needs and can provide the specialized help that I am currently seeking. Please consider making a small adjustment to my counselling benefits provision to include her services. I trust that you are interested in broadening the counselling options available to employees without additional cost to the company.

Thank you for your attention to this important matter. I would appreciate a timely response given my current situation and need for help.

Sincerely,
